Palladium
MAKE IT POSSIBLE

Addendum 2 to
RFP:
Sexual and Reproductive Health and Rights Information to PALM scheme workers

Ref.	Question	Response
1	Do you have a maximum permittable indirect overhead rate? And are there any stipulations for direct costs on salaries and travel, etc?	No, there is no maximum percentage provided to the Applicants for indirect expenses, this is one of the assessment criteria of commercials. There is no stipulation on direct costs, this will be dependent on the proposal concept and per unit rate proposed. Please note only Economy air fare is allowable in PLMSP project.
2	Do you anticipate awarding multiple grantees?	There is no predetermined limit on the number of grants to be awarded. Final decisions will be based on the quality, relevance, and value for money of proposals submitted.
3	Do you anticipate a limit on the number of grantees delivering activities in each implementing country? (e.g. no more than 1 per country?)	There is no prescribed limit on the number of grantees that may be engaged in each country. However, available funds are finite, and the assessment process will prioritise value for money, relevance to the local context, and the avoidance of duplication of effort.
4	Can applicants apply to deliver activities in a sub-set of the 10 countries?	Yes. Applicants may propose to deliver activities in only one or more of the 10 countries. They are encouraged to focus on those countries where they have existing strengths, presence, and partnerships.

All other information as set out in the RFP dated 23 December 2025 remains unchanged.
