# Addendum 1 to RFP: TLSSBT6.2026

## Interview Skills training to Women

| Ref. | Question | Answer |
|---|---|---|
| 1 | **Extension of submission deadline:** Given the scope of the assignment and the importance of establishing the most suitable local partnership arrangements to ensure high-quality delivery, we would appreciate your consideration for a short extension to the submission deadline. | YES. PLMSP has considered this and will be applying a two-week extension to the RFP.<br><br>Closing date will be extended to:<br>**14 May 2026, 5pm (UTC +9:00)** |
| 2 | **Clarification on consortium/partnership eligibility:** Could you please confirm whether submissions from a consortium or partnership (e.g., between a registered training organization in Timor-Leste and an international or supporting partner) are acceptable under this RFP? | YES. All proposals will be evaluated on the ability to meet criteria and consortium may be considered acceptable, but must involve a registered Timor-Leste training organisation. |
| 3 | **Lead Organization requirement:** If we apply as a partnership, could you kindly clarify whether the lead applicant must be need to be a registered training organization in Timor-Leste, or can this requirement be met by one of the partners? | All proposals will be judged on their merits, which includes how the program will be sustained in Timor-Leste over the long-term; whilst this does not discount a lead partner that is not a Timor-Leste registered training organisation, the proposal should demonstrate a sustainable model. |

| | | |
|---|---|---|
| 4 | **Budget Information:** Could you please confirm whether there is an indicative budget range or maximum budget allocated for this assignment? | We do have an approximate budget however as this is a relatively new product for the training market, we have made only estimations for internal use only, and are looking to test market expectations and indicative costings. It may be that our approximations are not aligned with market pricing therefore are not looking to publish an allocation at this time and adjust accordingly. |
| 5 | | |

All other information as set out in the RFP dated 14 April 2026 remains unchanged.
